

# Vaping Devices are **CONSTANTLY** Changing & Evolving.

Some of the newest devices on the market are "POP" disposable vaping devices. These devices are bright, colorful, and closely resemble water flavoring packets. Each device contains 5% nicotine.

This is another disposable vape, Bang XL (6% nicotine), that blends easily with lip gloss or makeup.

## **DID YOU KNOW?**

**There is as much OR more nicotine in 1 disposable vaping device as there is in 1 pack of cigarettes.**
