Disposal in Household Trash

If no medicine take-back programs or DEA-authorized collectors are available in your area, and there are no specific disposal instructions on the label, such as flushing as described below, you can also follow these simple steps to dispose of most medicines in the household trash:

1. Mix medicines (do not crush tablets or capsules) with an unpalatable substance such as dirt, kitty litter, or used coffee grounds;
2. Place the mixture in a container such as a sealed plastic bag
3. Throw the container in your household trash;
4. Scratch out all personal information on the prescription label of your empty pill bottle or empty medicine packaging to make it unreadable, then dispose of the container.

Follow these simple steps to dispose of medicines in the household trash

MIX
Mix medicines (do not crush tablets or capsules) with an **unpalatable substance** such as dirt, kitty litter, or used coffee grounds;

PLACE
Place the mixture in a **container** such as a sealed plastic bag;

THROW
Throw the container in your **household trash**;

SCRATCH OUT
Scratch out **all personal information** on the prescription label of your empty pill bottle or empty medicine packaging to make it unreadable, then dispose of the container.
